

# ROTATING GRABBER

A high strength dual function grabber for harsh environments

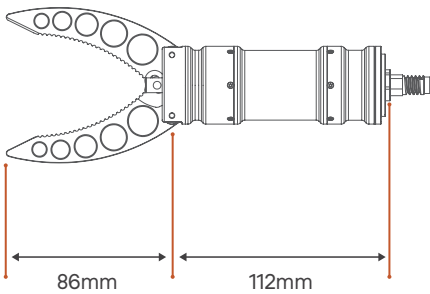

The smallest, toughest, most reliable grabber for portable ROVs

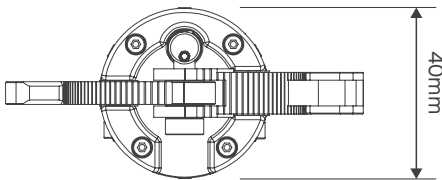

Subsea Ready  
300m Depth Rating

Modular  
Two Independent Axis

Small and Light  
40mm OD & 240g

## Grab With Confidence

The dual function grabber combines high strength linear and rotatory actuators. Internal feedback allows precise control of position, velocity and grip force. Lighter, smaller and more capable than anything else in its class, RA-2130 extends the capability of small unmanned vehicles to manipulate and recover objects in cluttered and complex environments.
